

LEADING THE PACK

with superior canine joint support products

HERE ARE THE FACTS:

Glyco FLEX® 3 is the only joint support product backed by a canine-specific clinical force plate study.

Out of the top selling brands, Glyco FLEX®* is the only joint support product line registered with the FDA as an animal health product.

Glyco FLEX® 3 is the only Perna product clinically researched in canine-specific studies for its impact on the following key markers of inflammation:

cytokine-induced NO and PGE2, soluble collagen, TNF-alpha, IL-6 and MMP-3.**

The GlycOmega® whole *Perna Canaliculus* mussel (used exclusively in VetriScience® Glyco FLEX® products) is the only New Zealand Green Lipped Mussel clinically researched for its impact on the following inflammatory markers: COX 2, IgG, TNF-alpha, IL-1, IL-2, and IL-6 and the free radical Super Oxide.**
